Sir;

This paper is being filed in response to the Office Action mailed 10 April 2006. In the Office Action, the Examiner required restriction between allegedly distinct inventions identified by the Examiner as Group I (claims 1-19), said to be drawn to a method of detecting an analyte and classified in class 435, subclass 25; and Group II (claims 20-23), said to be unclassifiable.

Applicants respectfully submit that the application is in condition for allowance. The Examiner is encouraged to contact the undersigned to resolve efficiently any formal matters or to discuss any aspects of the application or of this response.
